

Re-elect Congressman
John Carter
Our Congressman
Our Texas Values

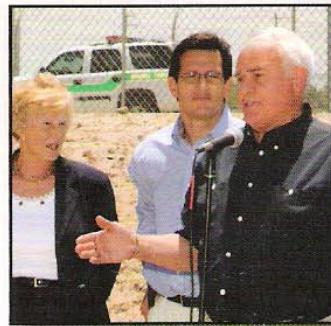

Re-elect John Carter to Congress

Keeping Us Safe

John Carter's tough stances as a Williamson County Judge led to a historically low crime rate. Congressman Carter has continued to keep us safe by authoring legislation that:

- Gives local law enforcement the ability to arrest criminal illegal immigrants
- Expands the death penalty to include terrorists
- Makes it a crime to steal someone's identity online

Energy Independence

John Carter sponsored a balanced energy plan that includes expanding domestic production of oil and natural gas and developing alternative energy sources like wind, solar, nuclear, and hydro.

Congressman Carter supports changing the law to end frivolous lawsuits filed by environmental groups against new energy exploration and has voted to construct numerous new oil refineries here in America.

Protecting Our Values

John Carter voted twice to constitutionally define marriage as between one man and one woman. He also supports Second Amendment rights and was given an "A+" grade for his pro-gun voting record by the NRA.

Congressman John Carter will reduce government spending and keep taxes low in order to support a strong economy
